**5 PLY CONSTRUCTION**

**9 PLY CONSTRUCTION**

## Stile / Rail

Finger jointed stile/rail made of selected hardwood species with good screw holding capacity, generally mango & neem wood

## Timber Core

Timber core is a traditional core extracted from the natural resources. Mango, Pine, Meranti are very popular filler. Strong and rigid Timber core is also known as solid core or block board. Timber core is chemically treated as per IS-401 and seasoned in automatic kiln seasoning plant as per IS : 1144. Benefit of this process reduced the moisture content up to the desirable level and make termite free, wood durable and fungi free

## Cross Band

Generally we used Popular / Mango / Pine / Gurjan for cross band in flush door

## Face Veneer

We must use Gurjan wood as a face veneer  
**COMMERCIAL** - With face veneers from selected commercial hard wood.

**DECORATIVE** - with one or both side face veneers from decorative timber like Teak, Wenge, Sapeli / varieties of lamination and decorative skins.

## Adhesive

It is the main factor for manufacturing flush door, Superior bonding & water proofing criteria is achieved by using phenol formaldehyde (PF) synthetic resin

High quality wooden flush doors are therefore in great demand among discerning architects, builders and contractors. **Vkalp** Flush doors have solid blockboard core with cross band and face veneers which are bonded with the Hot Press process by using Urea Formaldehyde Resin with REBA for Boiling Water Resistant (B.W.R. Grade) & Phenol formaldehyde Resin for 100% Boiling water Proof (B.W.P. Grade)

# Fire Retardant Doors & Frame

FRD is another quality product that is a solid core, hot pressed wooden fire Retardant flush door confirming to IS 5509-2000.

It undergoes strict quality control in order to resist severe fire and serve its purpose at a specific time.

Different parts of the building are separated from each other into compartments by a fire resisting construction in which openings for escape or other day-to-day activities are closed by doors, which have precise functions to fulfill in case of fire.

This door is constructed in such a way so that it can withstand severity of fire, a specified time.

We have certificate of Fire Door ratings of Veermata Jijabai Technological Institute (VJTI)
